

Scan to download

Open the public download page, then install on desktop Chrome.

1. Scan this QR code with your phone camera.
2. Open the same link on a Windows, Mac, or Chromebook computer.
3. Download the Windows installer ZIP or the manual extension ZIP.
4. Follow the desktop Chrome install steps on the page.

Download page:

github.com/vikramsundar2004-collab/Timebox-Youtube-Blocker-support-and-home

Chrome on iPhone can open this page, but it cannot run Chrome extensions.
Use desktop Chrome to install and use the blocker.
